Impressive mansion near La Cala and 300m from the sea with refurbish project

La Cala de Mijas, Urb. Torrenueva. Manor house of 1,000 meters built and 2,500 meters of plot. With a comprehensive reform project valued at 220,000 euros (see infographics) Its spacious ten bedrooms, with ten bathrooms, are enough for the shelter and shelter of owners, guests and service. They have air conditioning, character that also characterizes the noble areas.

All its residents will find fun and entertainment in the disco and underground cellar, which has its own bar, as well as relax, quiet walk and serenity of the spirit in its wonderful gardens, with swimming pool and pond.

Whether in the formal dining room, reminiscent of tsarist Russia, or in any of the daily dining rooms, diners will wait for the food, which, in the kitchen, is seasoned with a vocation of delicacy.

It comes very on purpose to talk about its proximity to the beach of El Bombo, located 300 meters and with direct access under a bridge of the highway. At a hundred meters, we find a supermarket and various restaurants and shops. Sometimes these establishments are grouped together, forming the sayings as commercial centers, as well as stores of international mercantile companies, which are called boutiques.

A short walk, we can walk to La Cala de Mijas.

Particularly, the gardens and swimming pool will shine at night, adorned by a hundred thousand candles, torches and lamps, a wide enough place to elevate the thought to the sky and to observe the cosmos, which will contemplate you to remind you that, in this space-time, which is our beloved Marbella, we live in an orderly and harmonious universe. EJO.
